

WALENTYNKOWA BIOLOGIA [1]

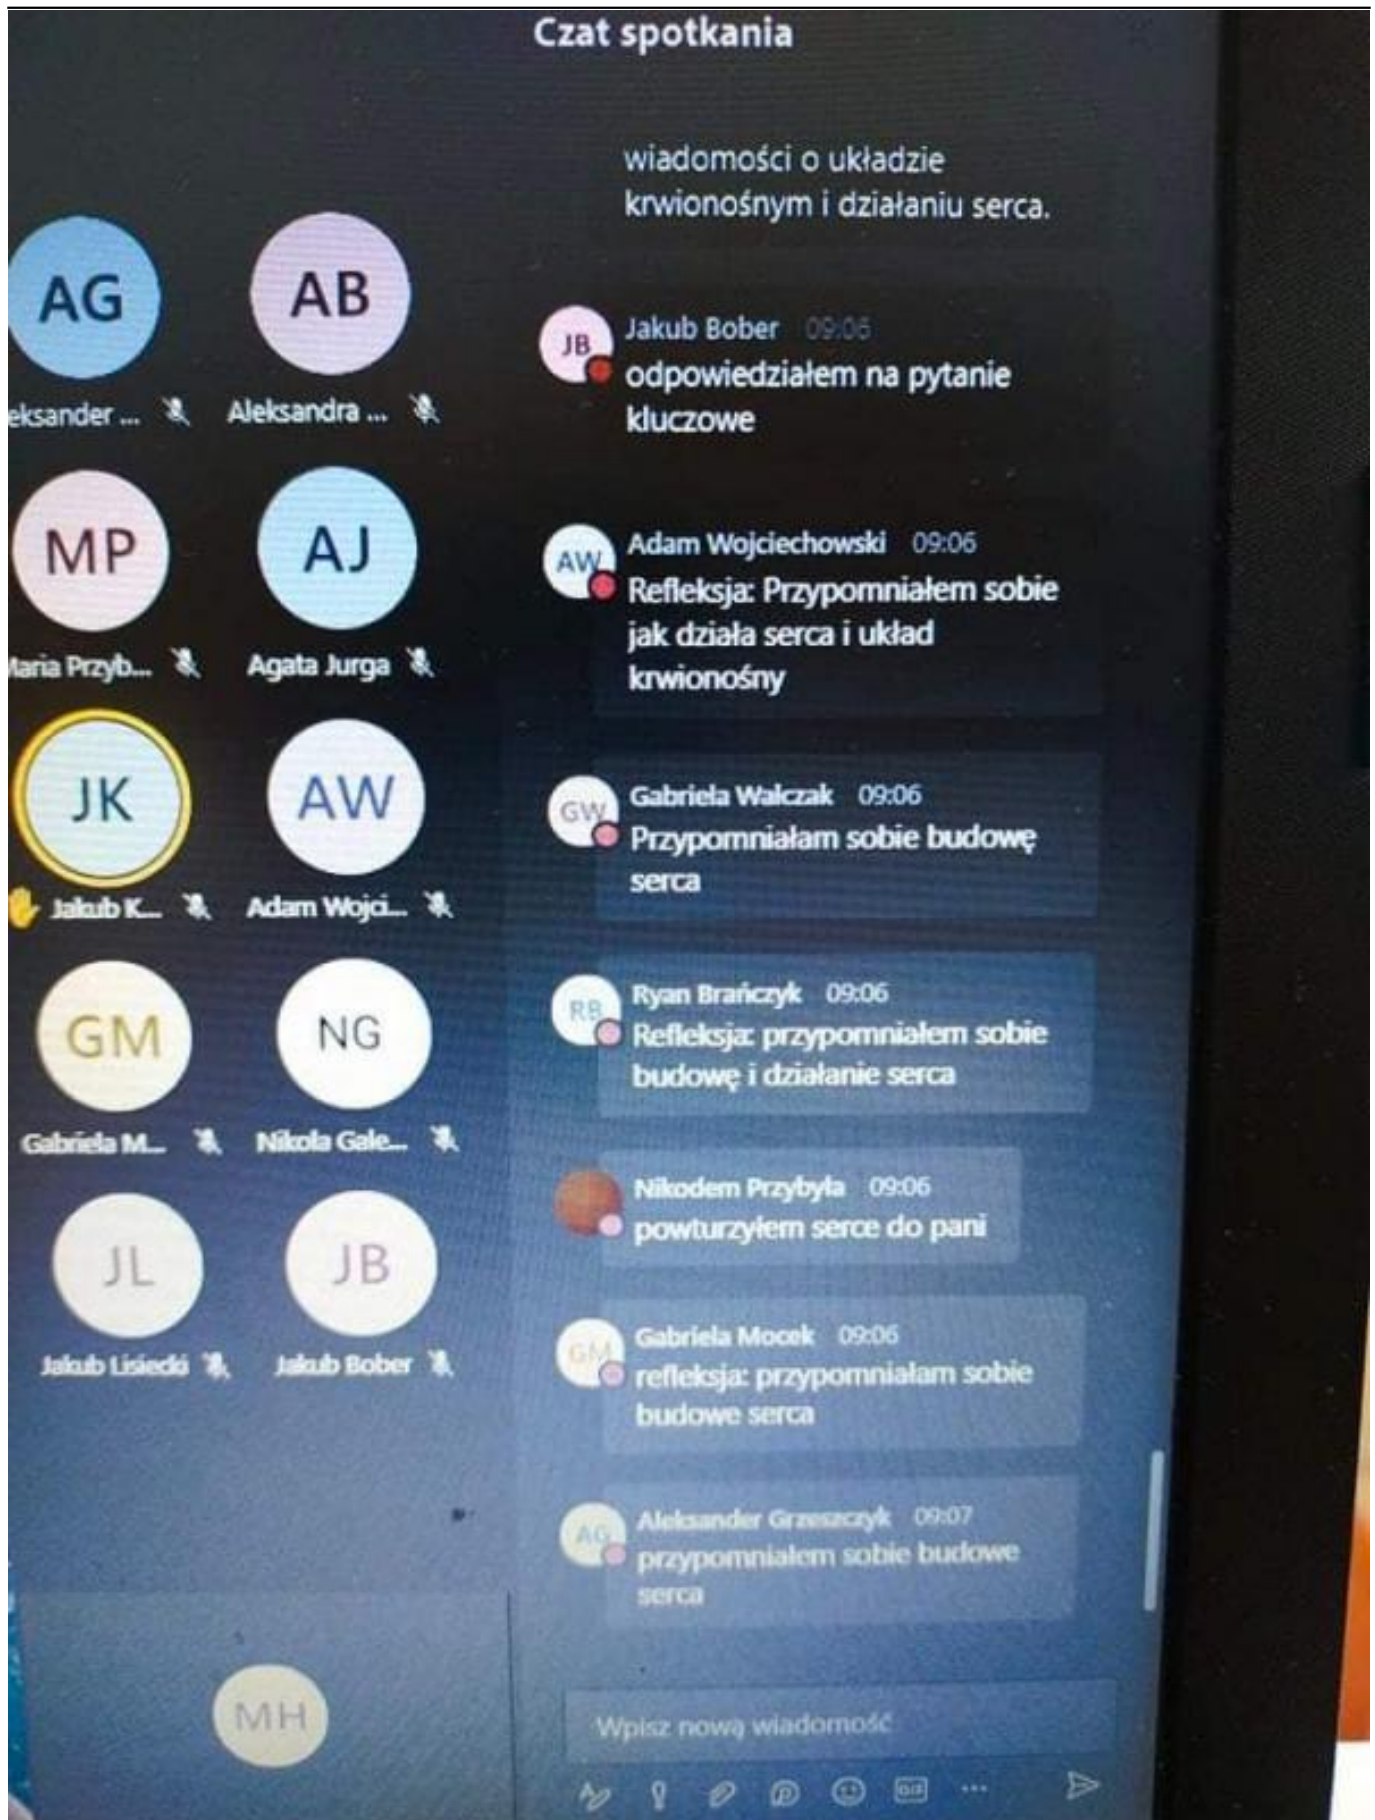

W poniedziałek uczniowie klas 7 i 8 celebrowali walentynki w nietypowy sposób.

Na lekcjach biologii zastanawiali się czy kochamy sercem .

Uczniowie wykonali chmury wyrazowe online oraz przypomnieli sobie budowę i rolę serca.

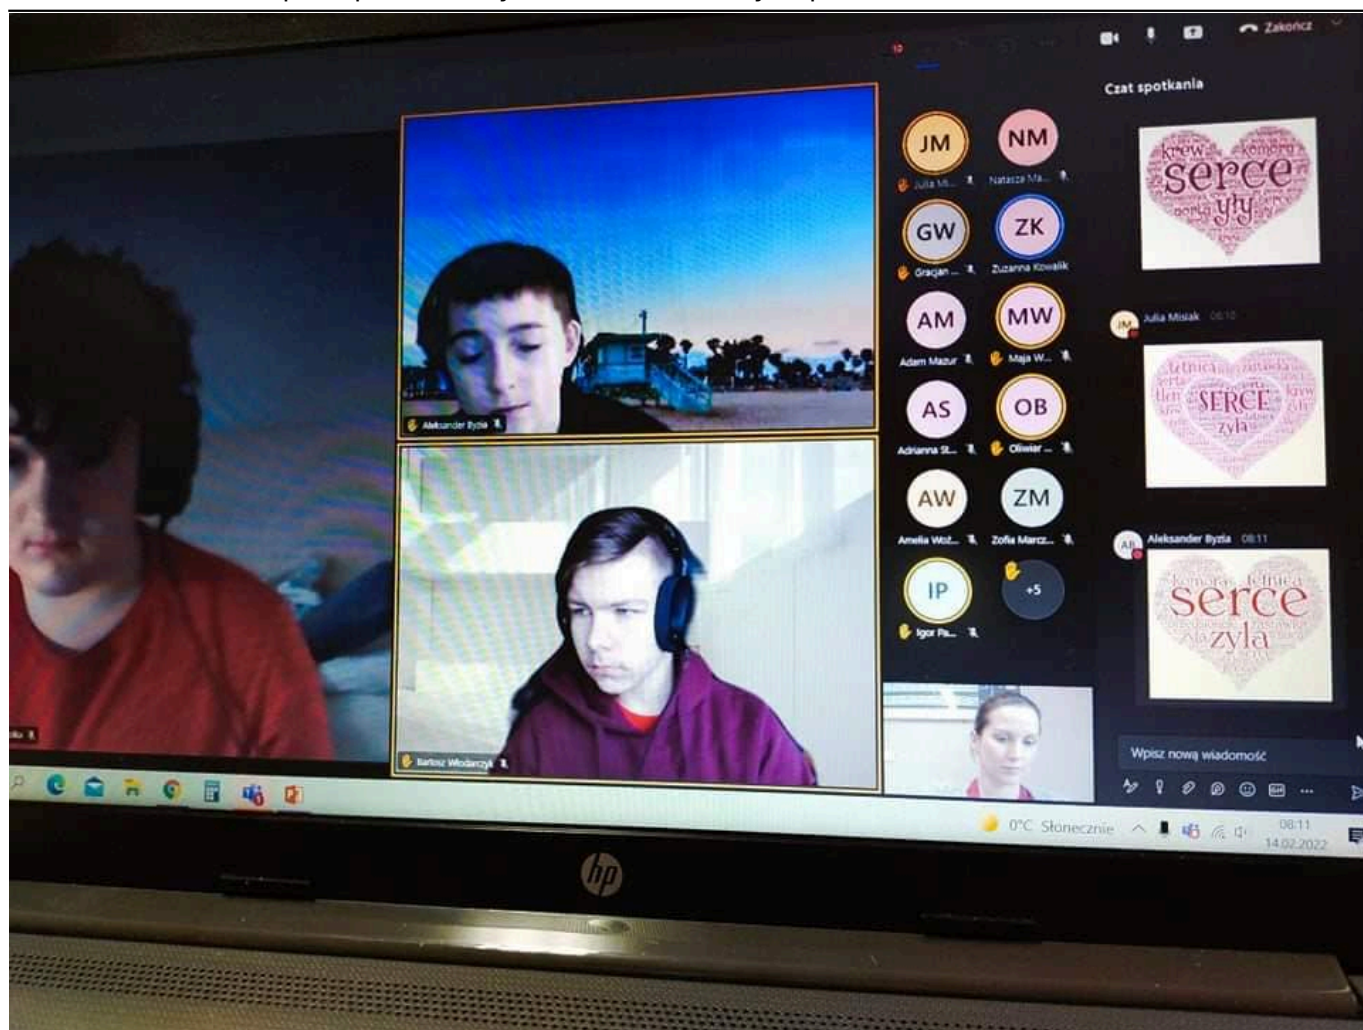

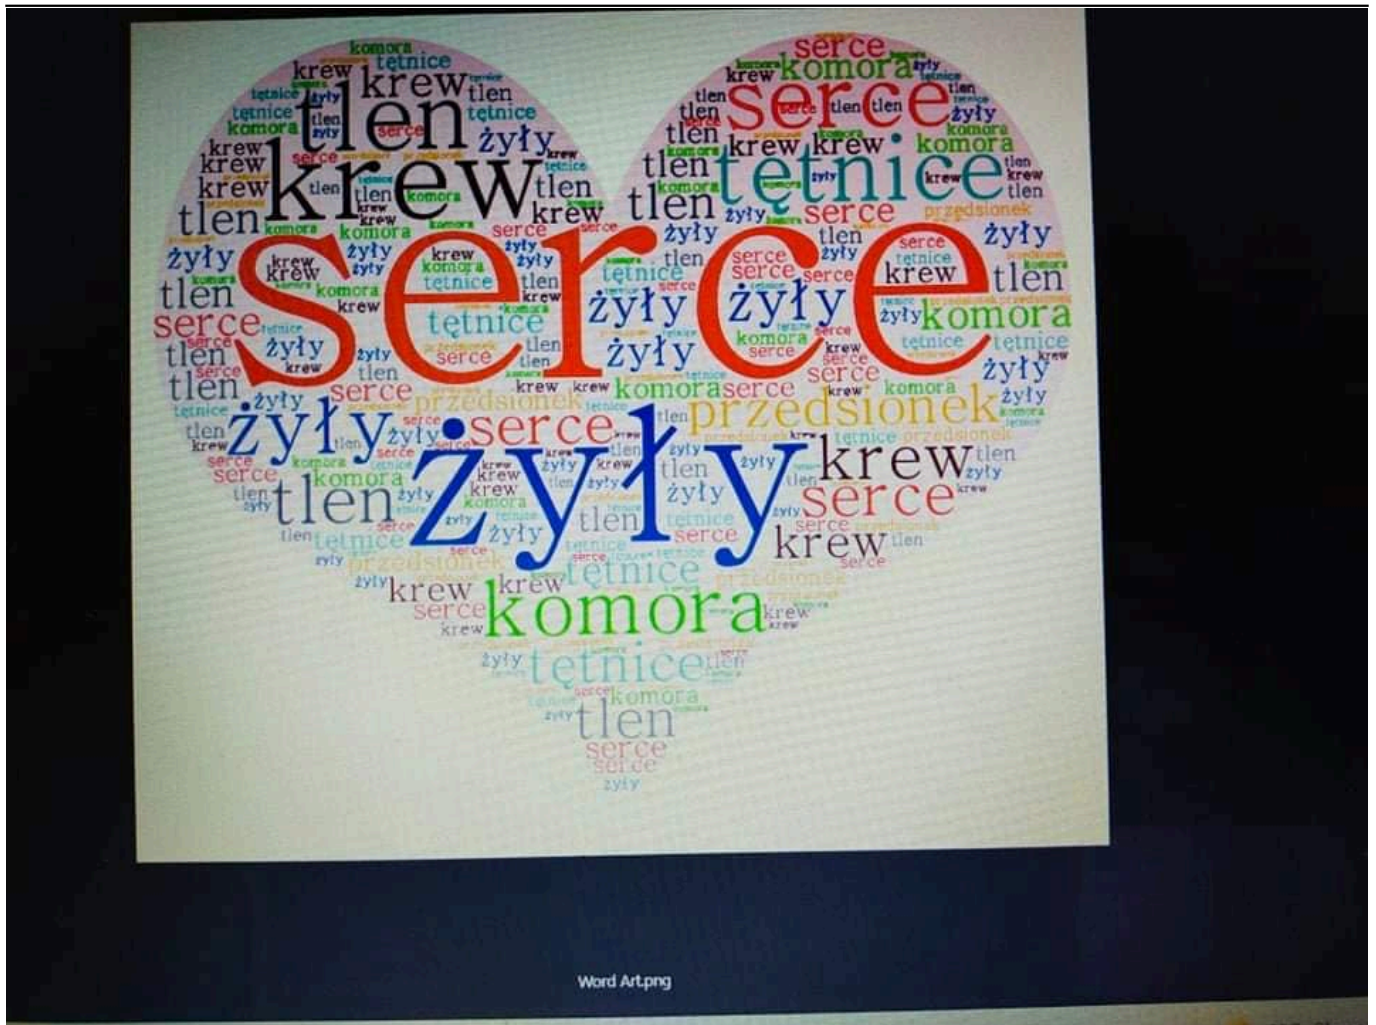

The image shows a presentation slide on a computer screen. At the top, a black banner contains the text "PYTANIE KLUCZOWE" in white, bold, uppercase letters. Below the banner, the question "Czy kochamy sercem?" is written in a black serif font. In the center of the slide is a square image with rounded corners. The image depicts a red heart with a keyhole on its lower right side. A silver key is inserted into the keyhole, and its handle is positioned across the top of the heart. The background of the image is a dark, textured red. The presentation is displayed in a software window with a menu bar at the top containing "Konwertuj na grafikę SmartArt", "style", "Pysowanie", and "Edytowanie". The Windows taskbar at the bottom shows the "NOTATKI" and "KOMENTARZE" icons, the system tray with weather information ("1°C Słonecznie"), and the date and time ("08:33 14.02.2022"). A small inset window in the bottom right corner shows a video call interface with the title "Biologia 7b" and the time "10:49".
